# **About the Author**

## **Esther Friedberg Karp, MBA**

President, EFK CompuBooks Inc.

esther@e-compubooks.com

Esther Friedberg Karp is an internationally renowned trainer, writer, business consultant and speaker who has been repeatedly listed as one of Insightful Accountant's Top 100 QuickBooks ProAdvisors in the world. She has also been named to their Top 10 list on two occasions: as Top International ProAdvisor and Top Trainer/Writer ProAdvisor.

Based in Toronto, Canada, Esther has the unique distinction of holding ProAdvisor certifications in the United States, Canada and the United Kingdom. She has authored materials and delivered educational and certification courses for Intuit in all those countries, as well as Australia where she conducted live QuickBooks Online training. She has spoken at Scaling New Heights, QuickBooks Connect and other conferences, and has written countless articles for Intuit Global.

Esther's clients include companies worldwide and accounting professionals who seek her out on behalf of their own clients. She is sought out for her expertise in various countries' editions of QuickBooks Desktop and Online, and for her talent in customizing QuickBooks usage for different industries. She also teaches QuickBooks Core and Advanced certification classes to accounting professionals in Canada.

Esther holds a BSc from the University of Toronto in Actuarial Science and Mathematics, and an MBA in Marketing and Finance from York University's Schulich School of Business.

She can be reached at <u>esther@e-compubooks.com</u> or 416-410-0750.

#### **QUICKBOOKS ONLINE TEST DRIVE**

Exercises contained in this handbook can be completed using a QuickBooks Online "test drive" file. The test drive uses a sample company file called Craig's Design & Landscaping Services. It can be accessed through the following link:

#### Craig's Design & Landscaping

You don't have to create an account or sign in to access the test drive file; just complete the security validation and click **Continue**.

This test drive is designed for you to explore and try out new things without worrying you will break something or make a mistake that affects actual company figures. It is also designed not to retain any changes you make. Once you close this QuickBooks Online test drive company it is completely refreshed, so remember to allow sufficient time to complete each activity. But don't worry if you have to close the test drive before you are finished! (Although you should change the *Sign me out if inactive for* setting to **3 hours** if you want to give yourself plenty of time.) You can always begin again.

# Topic 1: Best Practices

## **IDENTIFY BEST PRACTICES WHEN USING QUICKBOOKS ONLINE**

#### **Browser Tips**

The tips below are based on Google's Chrome browser, which is the most recommended browser for QuickBooks Online. However, many of these tips work in other browsers as well:

- Click a choice in the left navigation bar, +New menu, gear icon or other access points, drag it up and click again to access it in a new tab in the existing browser
- Log in to a QuickBooks Online company (including the test drive company), right-click your browser tab, left-click **Duplicate**. (You can repeat this as many times as you like.) Now you have multiple tabs logged in to the same QuickBooks Online Company. You can then navigate to another access point in QuickBooks Online in one (or more) of the tabs so you have two (or more) tabs open to the same company showing different areas of QuickBooks Online.
- Pull one tab out of the browser window, drag it to another monitor and click to release it; you can
  now work in QuickBooks Online on two different screens side-by-side. You can work on these
  two windows independently of each other. Repeat, as needed to run QuickBooks Online in more
  than two monitors, if you have them.
- Chrome allows you to create different users (Profile or picture of user → Add → Choose a name and a photo → Add). If you have two or more different QuickBooks Online companies, you can log in to each of them using a different Chrome user and operate each account simultaneously. (Or you can log in using two or more different browsers, such as Chrome, Firefox and Safari, or log in as an incognito user.)
- Log in as a separate dedicated Chrome user that you will use for your QuickBooks Online companies. Open the screens you use most often and bookmark them (click ★) to create a QuickBooks Online bookmark icon to be used with multiple QuickBooks companies.
- If a company has special screens you use regularly, create a folder on the Chrome bookmark bar, bookmark those screens and save in the folder

|   |            | 0           | In the Know Webinars - QuickBooks Community  | ]          |       |               |           |                               |                  |                  |
|   |            | 1           |  |            |       |               |           |                               |                  |                  |
| L |            |             |  |            |       |               |           |                               |                  |                  |

- Right-click the **back arrow** of the browser to display a recent history of the screens you were on previously; left-click the one you want to return to and resume working
- If you are getting unexpected results when working in QuickBooks Online or are having problems logging in, make sure to clear your cache and cookies in Chrome (Customize → History → History → Clear browsing data)
- CTRL+ and CTRL allow you to zoom in and out quickly

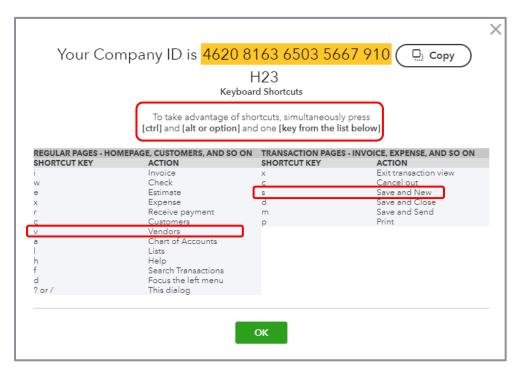

**Note:** This browser functionality works best in a Chrome browser and is useful because many accounting professionals use two (and sometimes three) monitors. (Internet Explorer and Edge also allow the user to right-click a tab and select **Duplicate**. Other browsers may not necessarily be able to select Duplicate by right clicking a tab. However, it is possible to highlight the entire URL of the tab, right-click and select **Copy**, then open a new tab in the same browser window, right-click and select either **Paste** or **Paste & Go**, depending on the browser being used.) All the browsers mentioned do feature the ability to drag a tab off to open in a separate browser window.

#### **Keyboard Shortcut Tips**

You may be used to working with keyboard shortcuts when using desktop programs, whether QuickBooks Desktop, Microsoft Word<sup>®</sup>, Excel<sup>®</sup> or other programs. There are also keyboard shortcuts when working in QuickBooks Online. Some common keyboard shortcuts can be found by clicking **Ctrl** + **Alt** + **/**. If you're on a Mac, use **Option** + **Ctrl** + **/**. Notice that the same shortcut key acts differently depending on the screen you are in.

For example, **Ctrl** + **Alt** + **c** opens the Customer Center, if you are *not* in the middle of creating a transaction. If you are in the middle of creating a transaction, it cancels that transaction.

These shortcuts indicate what function you can fulfill quickly in a Windows environment by clicking on **Ctrl** + **Alt** + **letter** (the list of letters is in the chart below). If you're using a Mac, substitute **Command** + **Option** + **letter**.

This screen is also one place you can find your Company ID (highlighted in yellow), which you might need if you have to call technical support.

Other keyboard shortcuts you may be interested in are the date shortcuts. When you are in a date field, you can move forward and back a day at a time by using your **+** and **-** keys. To go to today, use the letter **t**. Here are some other date shortcuts:

- w for first day of the week that is currently displayed
- **k** for the last day of the wee**k** that is currently displayed
- **m** for the first day of the **m**onth that is currently displayed
- **h** for the last day of the mont**h** that is currently displayed
- **y** for the first day of the **y**ear that is currently displayed
- **r** for the last day of the yea**r** that is currently displayed

Do you see the pattern? Use the first letter to go to the beginning and the last letter to go to the end of the time period related to the date that is currently displayed.

Also, the **Esc** key will cancel the current transaction being entered/edited.

#### **Calculations**

There's a simple calculator available directly on the rate or amount field of a transaction. Enter your first number, then use your keyboard to add (+), subtract (-), multiply (\*) or divide (/). The beauty of this feature is the results are entered directly into the transaction by clicking the **Tab** key and moving to the next field, either with your mouse or the Tab key; no retyping of numbers is necessary.

# Topic 2: Navigate

In this topic, we discuss how to navigate around QuickBooks Online. It's important to understand the interface and to know the options for entering information so you can figure out the correct workflow for your business.

## **COMPANY HOME PAGE**

When you log in to QuickBooks Online, the Home page is the first screen that appears. The top of the screen shows the name of the QuickBooks Online company (helpful when you are running more than one company in QuickBooks Online).

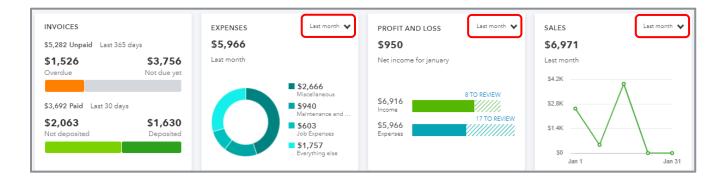

You'll see a Setup guide at the top of the Home page which can guide you through such steps as invoicing and connecting with an accountant. Clicking **Hide** will collapse this guide so you have more screen real estate available on this Home page.

Once it's collapsed you can click **Resume setup** to expand the setup guide again.

| Craig's Design and Landscaping Services |          |                 |                                |  |  |  |  |
|---|----------|-----------------|--------------------------------|--|--|--|--|
| INVOICES                                | EXPENSES | PROFIT AND LOSS | Bring it back ×<br>BAN anytime |  |  |  |  |
| \$5,282 Unpaid Last 365 days            | \$5,966  | \$950           | Check<br>Bank i<br>Is Out      |  |  |  |  |

Below the Setup guide, you'll see several bar charts and graphs related to the performance of your company. You'll see customer invoices receivable, including those that are overdue. You'll also see invoices that were paid in the last 30 days, including those that were not yet deposited. You'll also see a breakdown of major expense categories, income and expenses on the Profit and Loss, as well as a Sales graph. The time frames on these last three graphs start out at Last month, but can be changed by clicking the appropriate date range **drop-down** arrow to choose another date range. As you hover over any of the sections of these graphics, you will get more information about that section. You can drill down to get either a detail report related to totals or continue to get to an actual transaction.

On the right side of the Home page is a list of bank and credit card balances and, if those accounts are connected with the banks, you get information as to current bank or credit card balance versus the QuickBooks Online balance for each account, and how many transactions have been downloaded and not matched or entered into QuickBooks Online. There is also a direct link to connect a bank or credit card account to its QuickBooks Online counterpart, as well as a drop-down to take you directly to the register for the bank or credit card account of your choice.

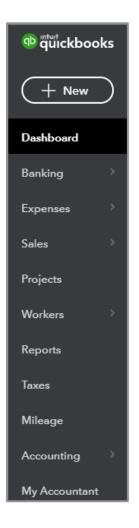

This section of the Home page acts as a reminder to review the bank feeds on a timely basis. You'll learn more about the Banking Center later in this training.

At the top right corner of the Home screen is a switch called Privacy. When you activate it, QuickBooks Online hides all the financial numbers on the screen to protect this sensitive information from anyone walking by your computer. This is very helpful if you're working in a public place such as an airport or a coffee shop.

On the left side of any QuickBooks Online company you'll find the left navigation bar. You will learn more about this as you go through this module.

Because the Home page automatically opens when you open QuickBooks Online, it directs the small business owner to review key metrics about their business. This is a good thing. Too often, small business owners and staff enter transactions but don't really look at their results until tax time. And that could be too late.

## **CUSTOMER CENTER**

Click the **Sales** tab in the navigation bar, then the **Customers** sub-tab (either in the horizontal list of tabs or in the pop-up list of tabs) to open the Customer Center.

- The colorful Money Bar at the top of this center is a visual representation of potential revenue in the form of unbilled estimates and time and expenses, plus receivables (including overdue invoices), as well as invoices paid in the last 30 days. You can drill down on any color block of the Money Bar to get to the underlying list and, ultimately, to transactions to review, edit or delete.
- The New Customer button in the top right corner creates a new customer in the Customer Center, as opposed to creating one on the fly in the Customer field of a transaction, which you can always do
- You can also click the **drop-down** next to New Customer and choose to **Import customers** here
- The visible columns of the Customer Center can be set by selecting the grid gear icon (in the top right corner of the Customer List, above the Action column) to show the Address, Email, Customer Type, Attachments and/or Phone number column, as well as how many rows of the Center to display on a page and whether to include inactive customers ad projects (if they're turned on). This setting is "sticky," which means the next time you open the Customer Center, QuickBooks Online will remember your display preference.
- Click the customer name to view or edit the customer details (i.e., profile) for them, see a list of transactions or create new transactions
- Click the envelope icon next to a customer name in the Customer Center to launch your native email client to send them an email
- Above the Customer list, you can easily find a customer or filter the list by typing part of the name in the Search box

- You can sort the Customer List (or a transaction list for a customer, if you've clicked on the customer name or a color block of the Money Bar) forward and backward by several parameters simply by clicking the column header for that parameter, either once or twice, to specify sorting forward or backward
- Once in the certain tabs of the Sales Center, you can create invoices, receive payments, send a reminder or an invoice link, print a packing slip, print a statement or copy a sales transaction for an individual customer under the Actions column; the choices available to you depend on which tab is displayed and, if individual transactions are listed, what transaction type is listed in the current row
- Clicking the **Create invoice** hyperlink next to an entry (any entry which can lead to invoices such as an estimate, a delayed charge or a time activity) will open an invoice populated with that entry; any additional entries available to be added to the invoice will be in the drawer to the right of the invoice.

The Vendor Center is like the Customer Center, except it's related to vendors, not customers.

- The colorful Money Bar at the top of this center relates to potential expenses (open purchase orders), unpaid and overdue bills and which bills have been paid in the last 30 days
- If you click any of these color blocks, QuickBooks Online will display the underlying list of transactions that pertain to that section; if you keep drilling down, you can ultimately drill down into individual transactions to review, edit or delete
- Although you can always create a new vendor on the fly in transactions by simply typing a new vendor name in the Vendor field (and following the pop-up instructions to add that name and details), the New Vendor button in the Vendor Center also allows you to create a new vendor
- If you click the **drop-down** next to New Vendor, you can import vendors here
- The Prepare 1099s button allows you to prepare 1099s
- The editing columns, individual transactions, batch transactions, emailing and viewing the vendor in the Vendor Center work the same as in the Customer Center

## VARIOUS TRANSACTIONS TABS

There are four main ways to enter transactions from the various transactions tabs in the left navigation bar: Banking, Sales, Expenses and Accounting. And for those QuickBooks Online Plus and Advanced users who are using Projects, there is a fifth way. You can enter transactions via the Projects tab.

**Banking** - This opens the Banking Center. If you have connected your bank and/or credit card accounts to QuickBooks, you'll see those accounts listed across the top of the page, as well as a list of transactions that need to be either matched or added to QuickBooks. You will learn about that in Topic 4 of this training.

- Sales Click Sales in the left navigation bar, then All Sales to open the Sales Center where there
  is a Sales Money Bar that shows potential revenue, unpaid/overdue invoices and what has been
  paid in the last 30 days
  - As opposed to the Customer Center which shows a Customer list, the Sales Center shows a list of transactions that can be filtered
  - New transactions can be easily added from the top right corner of the screen by clicking New transaction
  - Next to the New transaction button there is an Import Transactions button which allows you to import sales transactions from Square, if you have that set up, or from Excel by SaasAnt
  - The Action column shows suggested next steps, as well as other choices related to that transaction in the drop-down menu
  - As in the other centers, you can check multiple transactions and perform batch actions of printing or sending

- **Expenses** Click **Expenses** in the left navigation bar, then **Expenses** to see a list of recent expense transactions which, like other centers, can be easily filtered
  - Click a transaction in the list to open the original transaction
  - The types of transactions that can be entered from here are: bills, expenses, checks, purchase orders, vendor credits and pay down credit card
  - You can also print checks from this screen

- Chart of Accounts Click Accounting in the left navigation bar, then Chart of Accounts (you may also have to click See your Chart of Accounts), to see a list of your general ledger accounts
  - You can double-click the account or select View register to open the register for any balance sheet account (except Retained Earnings)
  - If you click the drop-down next to Add check in the top left corner of a bank account register you've opened, you can add many types of transactions that affect a bank account:
    - Check
    - Deposit
    - Sales Receipt
    - Receive Payment
    - Bill Payment
    - Refund
    - Expense
    - Transfer
    - Journal Entry
  - These transactions are abbreviated versions when launched from this access point; you will likely find launching the transactions from points other than a register will be a better user experience
  - The types of transactions available from the drop-down will vary depending on the type of balance sheet account being viewed in the register

• You can select **Run report** to view an Account QuickReport for any Profit and Loss account

- Projects If the Projects feature in QuickBooks Online Plus and Advanced is being used, you can launch transactions related to a project from the Projects area of the left navigation bar. (Older companies that have been using QuickBooks Online for some time may not see the Projects tab in the left navigation bar unless this feature is enabled by clicking the gear icon → Account and Settings → Advanced → Projects.)
  - Click Projects in the left navigation bar. If there are no pre-existing projects, click Start a project.

To summarize, the left navigation bar in general, and the various transactions tabs specifically (Banking, Sales, Expenses and Accounting, and Projects, if this feature is being used in QuickBooks Online Plus or Advanced), are access points for entering transactions.

However, there is one other place, the most central place of all, to launch all transactions and we will cover it next.

#### +NEW

The +New icon is at the top of the left navigation bar. This is your one-stop shop for creating new transactions.

There are two views of +New. There's a Show Less (i.e., condensed) view that just shows the common transactions of Invoice, Estimate, Expense and Check, and a Show More view that lists all transactions in QuickBooks Online sorted by the different areas of the company: Customers, Vendors, Employees and Other. The choice of view is sticky; QuickBooks Online remembers which view you prefer and offers it to you the next time you click the **+New** button.

| Invoice  |           |
|----------|-----------|
| Estimate |           |
| Expense  |           |
| Check    |           |
|          |           |
|          | Show more |

| CUSTOMERS       | VENDORS            | EMPLOYEES            | OTHER                    |
|-----------------|--------------------|----------------------|--------------------------|
| Invoice         | Expense            | Payroll 🎓            | Bank deposit             |
| Receive payment | Check              | Single time activity | Transfer                 |
| Estimate        | Bill               | Weekly timesheet     | Journal entry            |
| Credit memo     | Pay bills          |                      | Statement                |
| Sales receipt   | Purchase order     |                      | Inventory qty adjustment |
| Refund receipt  | Vendor credit      |                      | Pay down credit card     |
| Delayed credit  | Credit card credit |                      |                          |
| Delayed charge  | Print checks       |                      |                          |
|                 |                    |                      |                          |
|                 |                    |                      | Show less                |

Once +New has been selected you can close the pop-up list of transactions (regardless of which version) to enter by clicking **+New** again or by clicking anywhere outside the pop-up list.

# **Course Conclusion**

You have just covered *Course 2 - Navigate QuickBooks Online*. This course has been developed to help you train your clients on how to use QuickBooks Online successfully.

By completing this module, your client should understand:

- Best practices in QuickBooks Online
- How to navigate around QuickBooks Onlines
